NOTES AND PRECIS.

D. No. 1231 S. N. 1.

The Municipal Commission have agreed to pay Rs. 900/- for X-Ray photographs supplied to the Municipal Tuberculosis Dispensary by the Bowring Hospital from 1st August 1938 to 31st March 1939.

On the basis of actual cost on films, chemicals etc the pay of the dark room assistant, and honorarium proposed to be given to the Radiologist for the extra work involved. the Residency Surgeon has worked out the total payment to be paid by the Municipal Commission at Rs. 787/- and proposes to distribute this amount as follows:-

(i)	Cost of materials including cost of films.	Rs. 375/-
(ii)	Pay of dark room Assistant.	Rs. 112/-
(iii)	Honorarium to the Radiologist.	300/-

The orders of the Resident is sought on item (iii) Under S.R.11 no Government servant may undertake work for an Indian State or a private or public body or a private person, or accept a fee therefor without the sanction of the competent authority (in this case the Resident) who shall certify that the work can be undertaken without detriment to his official duties and responsibilities. The Residency Surgeon certifies that the extra work on behalf of the Municipal Commission has been undertaken by the Radiologist without detriment to his official duties. Strictly speaking the orders of the Resident should have been obtained before the work was undertaken. As the Radiologist by virtue of his appointment is required to take the photographs as.....

cases come up for examination, it was not apparently possible to take the previous orders of the Resident.

S.N.3 (W) 218-31
S.N.1-7
F. 16

Fifty per cent of the fees realised in the X-Ray Department is distributed to the staff including the Radiologist. On this basis the staff should get Rs. 450/- out of Rs. 900/- sanctioned by the Commission. The payment of Rs. 300/- × to the Radiologist therefore seems to be reasonable. Out of this sum however the Radiologist has to pay Rs. 100/- to the general revenues and he will actually get only Rs. 200/-.

× And Rs. 112/- on account of the pay of the dark room assistant.

Draft submitted.

20.2.39

23.2.39

E.A.

May issue.

If the arrangement is to be made permanent the sanction of the Political Department will be necessary, since it will involve an alteration in the basis of recovery and distribution of fees for X-Ray photographs, (so far as the work done for the Municipal Commission is concerned) and since powers have not been delegated to the Resident to make alterations to the rules for the levy of fees in Bowring and Lady Curzon hospitals. As regards the current year the rate of fees may be deemed to have been reduced by the Residency Surgeon under the powers vested in him to reduce rates in individual cases.

J. N. Rajagopalan
3.3.39

Secretary wanted this case to be re-examined with reference to (1) S.R. 10 and (2) powers of the Residency Surgeon to reduce or remit fees.

(1) S.R.10

A radiologist need not necessarily be a medical officer. ~~and S.R. 10 does not apply to his case.~~ The nature of work for which rates of fees have been prescribed under this rule does not include X Ray examination. (These rates have not been printed in Appendix 26 referred to in S.R.10 but a list will be found at pages 5 to 8 of File 158-35 put up). S.R.10 does not therefore apply to fees received by a medical officer for radiological work.

(2) Powers of the Residency Surgeon to reduce or remit fees

Rule 11 of the rules for the levy of fees in the Bowring and Lady Curzon Hospitals gives discretion to the Residency Surgeon to reduce or remit fees according to the means of the patients. In this case of course the Municipal Commission pay the fees; but remission or reduction of fees should it seems be judged with reference to the means of the patients sent up by the Commission and not with reference to the Commission's capacity to pay. Tuberculosis patients treated in the Municipal Dispensary generally belong to the poorer classes and the Commission can seldom recover any charges from them. Government are as much interested in these patients as the Municipal Commission; and it would appear therefore that the Residency Surgeon is right in recovering a reduced fee from the Municipal Commission in respect of these patients with reference to rule 11 of the Hospital rules. The patients sent up by the Zenana Mission Tuberculosis Hospital are examined free of charges and there is no reason why the

same

same privilege should not be meted out to the patients sent up by the Municipal Dispensary. The Municipal ~~Commixx~~ Commission are however prepared to pay the actual cost including an allowance to the Radiologist for the extra work; amd it is for orders whether, for the reasons given in para 5 ante, the radiologist may be permitted to receive the honorarium under rule 11 of the Supplementary Rules.

KL 9.3.39

(from para 7)

F.A 14.3.39

Supplementary Rule 10 embodies the orders issued under Fundamental Rule 46 A in Government of India Education Health and Lands Department letters F.18-10/32 H of 28-9-34 and F.20-16/35 H dated 18-12-35 and these orders apply to fees received for services rendered by medical officers to private bodies or persons in their private capacity. They do not cover or apply to Radiological work done at X-Ray installations in Government hospitals - Such work is now done as part of the ordinary hospital duties though the Government servants doing the work are, in consideration of the extra work involved and fees realized, remunerated by a share of the fees. These payments are treated as honoraria - c.f. note under Article 217 A Civil Account Code Volume I. It will also appear from the Government of India letters No.F.51-1/34-H dated 14-1-36 and 8-12-36 that the intention is to treat such work as hospital work and not as private practice. Even in the case on hand it is the hospital that has undertaken to do the work and not the radiologist in his private capacity. It has accordly to be dealt with under the Rules for levy of fees in

Put up

S.N 1 & 7

F 18-36

Bowring

Bowring and Lady Curzon Hospitals and not under S.R. 10 or S.R. 11.

11 Rule 11 of the Hospital Rules gives discretion to the Residency Surgeon to reduce or remit the prescribed fees when he is satisfied that the means of the patient or of those responsible for him do not admit of full or partial payment. This discretion has to be exercised in individual cases and it cannot obviously be held to cover an arrangement of the kind agreed with the Municipal Commission which amounts practically to the payment of a grant-in-aid to the Municipality. The sanction of the Political Department appears necessary to the arrangement. I thought that we might perhaps not take a strict view of the case if the arrangement was temporary for the year only but on further consideration I think we should obtain the sanction of the Political Department even for a temporary arrangement as it is not covered by the Rules. Before, however, addressing the Political Department we might perhaps ascertain the arrangements proposed for 39-40 so that we can save a further reference.

J. N. Rajagopalan 29.3.39

12 The file may be sent to the Residency Surgeon U.O. with reference to the last sentence of the F.A's notes.

K.L. 31.3.39

Sec

13 Residency Surgeon may be asked whether this is now to be a permanent arrangement & whether he can get sanction of Municipal Commission & this now, so that we can make only one reference to Pol. Dept

6

There seem to be some confusion in the amount of the honorarium. In one letter he proposes Rs 300/- per annum but in the other he proposes Rs 300/- from 1.8.1938 to 31.3.1939

C/f. 2

4/4/39.

The Residency Surgeon, Bangalore, U.O.
No. 1221, dated the 12th April 1939

Please see enclosed copy of letter No.2319/39, dated 1-6-'39 with enclosure received from the President, Municipal Commission together with a copy of the letter to which it is a reply. It will be seen that the Municipal Commission have now agreed as a permanent measure to the payment of a flat rate of Rs. 3/- for each X-ray photograph supplied to the T.B.Dispensary.

The correspondence is self explanatory and necessary sanction may kindly therefore now be obtained.-

(1) to charge Rs 3/- for each X-ray photograph supplied to the T.B.Dispensary and

(2) to the grant of an Honorarium of Rs 25/- p.m. to the Radiologist of the Bowring & L.C. Hospitals.

Regarding the query raised in the latter part of Secretary's note at para 13 about the amount of honorarium.-

As already explained in para 4 of this office letter No.2633/28-A, dated 3-2-'39 the proposal originally submitted to the Municipal Commission did not include the 1/3rd share payable by the Radiologist under S.R.11 and was only fixed at Rs 25/- nett; when submitting the application to the Hon'ble the Resident for sanction to the proposal, the

P.M.C 15

amount was fixed at Rs 37/8/- taking into account the 1/3rd recovery, as it was the intention that the Radiologist should be remunerated with an honorarium of not less than Rs 25/- nett.

In the present arrangement the question of 1/3rd does not arise vide F.A's note in para 10.

The proposal, if sanctioned, will take effect from 1-8-1938.

14/VI

Secretary to the Resident U.O.
No. 771 dated 14th June'39.

OFFICE OF THE
HON'BLE THE RESIDENT
IN MYSORE AT BANGALORE.
15 JUN 1939
Diary No. 6031
File No.

17

The recommendations now made by the Residency Surgeon are:-

(1) to recover a reduced charge of Rs. 3/- per X-Ray photograph from the Municipal Commission as against Rs. 10 payable under the Rules, and

(2) to grant an honorarium of Rs. 25/-p.m. to the Radiologist.

page 3 of the rules at X

Recommendation (1)

18

In para. 11 of these notes the F.A. has taken the view that the reduction of the fee fixed for X-Ray photograph requires the sanction of the Political Department. They may therefore be addressed.

Recommendation (2)

19

This requires clearing up and further information is

necessary before the Political Department can be addressed.

20 According to the F.A's note in para. 10 ante the receipt from the Municipal Commission should be treated as an ordinary hospital receipt, 50% of which can be distributed to the staff of the X-Ray and Electrical Departments in a proportion to be fixed by the Residency Surgeon in accordance with the orders of the Political Department contained in S.N. 3 F. 218-31. Under these orders the receipt to Govt. will be only 50% of the income. In 1938-39 the total receipt from the Municipal Cpmmission on account of the supply of X-Ray photographs is estimated at Rs. 1,107 of which the Govt. share will be Rs. 553-8-0. The expenditure against this is Rs. 738-8-0 as follows:-

3 x 369 cases
page 4 of (N)

Cost of X-Ray films for 369 cases.....	452-8-0
Chemicals	94-0-0
Electric current	24-0-0
Pay of Bark room Assistant	168-0-0
total	738-8-0

It will be seen that this involves a loss to Government of Rs. (738-8-0 less 553-8-0) 185.

21 If on the other hand the Residency Surgeon's proposal to grant a fixed honorarium of Rs. 25 p.m. to the Radiologist instead of a percentage refund is adopted the proposal will result in a net gain to Govt. of 68-8-0 as follows.

Income		Rs 1107-0-0
Expenditure		
(1) Cost of films	Rs. 452-8-0	
(2) Chemicals...	94-0-0	
(3) Electric Current	24-0-0	
(4) Bark room Asstt.	168-0-0	
(5) Honorarium	300-0-0	
	1038-8-0	
	68-8-0	

This therefore seems to be a better alternative provided that the receipts from the Municipality to the extent of actual expenses including the pay of the Dark room Assistant and an honorarium of Rs. ~~25~~ 300/- to the Radiologist can be guaranteed in future years also.

23 If the receipts to this extent cannot be guaranteed, then it seems safer to adopt the 50% distribution instead of a fixed honorarium. Even so the 50% distribution should be subject to a maximum of the difference between the receipt from the Municipal Commission and the actual expenses involved in making the photographs.

Perhaps the Residency Surgeon may see again for favour of remarks.

KIC
19.6.39

23.6.39

24

On the basis of figures for three months (100 cases during March to May 1938) the Residency Surgeon estimated that the average number of cases per year would be about 400 - vide his letter dated 19-8-1938 to the Municipal Commission and the actual number for 38-39 has been 369. The actual cost including the pay of the Dark room assistant works out to Rs.2/- per film $\left(\frac{\text{Rs.738-8-0}}{369}\right)$ and Re.1/- will be available for meeting the payment to the Radiologist. The question of a loss to government in paying Rs.25/- per mensem to the Radiologist will therefore arise when the number of films taken in a year falls short of 300. It is understood that during the period 1-4-39 to 26-6-39 there were 70 cases only. At this rate the figure of 300 may not be reached in the current year. There might be

pro-

proportionately more cases in later months but we can't be sure. To prevent possible loss to government therefore it would be preferable to fix the remuneration to Radiologist at Re.1/- per film subject to a maximum of Rs.300/- per annum. The Residency Surgeon may see and say if he agrees.

J. M. Rajagopalan
27.6.39

Resy Surgeon u/o
No.6.Q 27.6.39

The suggestion to fix the remuneration to the Radiologist at Re.1/- per film would appear to be unexceptionable but for the restriction of the maximum to Rs.300/- per annum. The arrangement originally proposed had the merit of simplicity in that every body knew where they stood; and I have no reason to suppose that the annual number of films from the Dispensary would not reach the total of 300. But if remuneration per film is preferred, why should the Radiologist who does the work and runs the risk be penalized? I am therefore of opinion that this restriction to a maximum of Rs.300/- should not be imposed.

R. S.

To
The Secretary to the Hon'ble the Resident
in Mysore, Bangalore.

U/O.No. 100 R. dated 7th July 1939.

OFFICE OF THE
HON'BLE THE RESIDENT
IN MYSORE, BANGALORE.
1939
No. 7009
No.

Since the Residency Surgeon is confident that there will be 300 cases each year (deficiency, if any, in one year may also be made up by an increase in another), I think the original proposal to fix the remuneration of the Radiologist at Rs.25/- per mensem may be accepted and the

Political Department addressed.

27

If the proposal is sanctioned the Residency Surgeon may be required to report at the close of each year the number of cases dealt with in the year, the expenses incurred and the fees recovered from the Municipal Commission so that the position may be reviewed, if necessary, at any time.

RESIDENCY SURGEON. BANGALORE.

THE Secretary
to the Hon'ble the Resident in Mysore,
BANGALORE.

Subject:—
X-Ray Photographs for the Municipal Tuberculosis Dispensary, Bangalore.

SIR,

I have the honour to forward herewith copies of my letter No.203 dated the 19th August '38 to the President, Municipal Commission and the Municipal Commission's Resolution dated the 29th September'38 sanctioning an expenditure of Rs.900/- for the supply of X-Ray Photographs required for the Municipal Tuberculosis Dispensary, Bangalore (opened in February 38) from 1-8-38 to 31-3-39.

On the basis of the actual expenditure on films etc. used for the dispensary since August '38 to January '39 the approximate expenditure for the period 1st August '38 to 31st March '39 is likely to be Rs.375/- for about 230 cases.

It is therefore proposed to bill the Municipal Commission for the actual cost of films, chemicals etc and the pay of the dark room assistant in addition to an honorarium to the Radiologist.

It would appear reasonable that the Radiologist in consideration of the increase in work fallen on him should be remunerated and I have the honour therefore to recommend that sanction may kindly be accorded to the acceptance by the Radiologist of the Bowring and Lady Curzon Hospitals of an

honorarium of Rs.300/- from the Municipal Commission, Civil and Military Station, Bangalore, for the period 1st August '38 to 31st March '39. This fee has now been fixed taking into consideration that he has to credit to the General Revenues under S.R.11, 1/3 of such fee which will go towards the services of the X-Ray equipment and staff rendered in this connection. I am satisfied that the work is undertaken by him without detriment to his official duties and responsibilities and request that necessary sanction may kindly be accorded.

If the proposal is approved the Municipal Commission will be asked to pay for the period 1st August '38 to 31st March '39 as follows:-

As against Rs.533/- proposed in the letter to the Commr.

Rs.375/- or thereabouts (for cost of materials etc.)

Rs.112/- (pay of dark room assistant)

As against Rs.200/- proposed in the letter to the Commr. page 6 infra

Rs.300/- (Honorarium to the Radiologist.)

787

As the Municipal Commission have stated in their Resolution page 3-4 infra that the scheme in general proposed in my letter will be considered in connection with the general provision for Tuberculosis work proposals for next year will be made in due course. Necessary provision on the basis of the current year's expenditure has however been made in the Municipal Budget for 1939-40.

I have the honour to be,
Sir,
Your most obedient servant,

Lieut-Col.I.M.S.,
Residency Surgeon, Bangalore.

Copy of letter No.203 dated the 19th August '38 from the Residency Surgeon to the President, Municipal Commission, Civil and Military Station, Bangalore.

I have the honour to draw your attention to the fact that consequent on the opening of the new Tuberculosis Dispensary, Bangalore, a considerable increase in work has fallen on the X-Ray Department of the Bowring and Lady Curzon Hospitals, Bangalore.

I attach a statement showing the number of X-Ray photographs supplied to the Tuberculosis Dispensary during the three months ending May '38 on the basis of which the annual number of cases that is likely to be referred, is estimated at 400 and the expenditure on films and materials at Rs.800/-. Represented in cash at the usual charge of Rs.10/- per photo which is equally divisible between the Government and the X-Ray staff, the help the dispensary will receive annually will amount to Rs.4000/-.

I trust you will appreciate that X-Ray photographs are an essential part of diagnosis for Tuberculosis; but at the same time to provide the dispensary at this early stage with its own plant would involve an expenditure of Rs.14000/- for the plant alone excluding the recurring expenditure and the additional staff. This does not seem to me practicable or desirable when a big hospital in its close vicinity provides X-Ray facilities with its highly skilled staff.

It would therefore appear to me that notwithstanding a small annual expenditure the services of the X-Ray equipment and the X-Ray Staff in the Bowring and Lady Curzon Hospitals can advantageously be utilized and I have the honour therefore to submit the following proposals for favour of sanction.

	Expenditure per annum.
1.Cost of films and materials which will be purchased for the dispensary as and when required and bills sent to the Municipality for payment.	Rs.800/- (approximate)

	Expenditure per annum.
	Rs.800/-
2. Employment of a Dark Room Assistant on Rs.14/- p.m.	Rs.168/-
3. Allowance to the Radiologist, Bowring and Lady Curzon Hospitals, Bangalore @ 25/- p.m.	Rs.300/-
	Rs.1268/-

Items 2 and 3 to take effect from 1-8-38.

The expenditure involved can be met from the allotment under "Hospitals and Dispensaries-Contingencies-Medicines"

Sd/- J.B.Hance,
Lieut-Col.I.M.S.,
Residency Surgeon, Bangalore.

Municipal Commission's Resolution dated the 29th September 1938. (Ordinary meeting)

---

2. Residency Surgeon's proposals for sanction to incur an annual expenditure of Rs.1,268/- for the X-Ray Photographs required for the Municipal Tuberculosis Dispensary.

Recommended that Rs.900/- be allotted for X-Ray expenditure from the 1st August 1938 to 31st March '39.

(Scheme proposed by the Residency Surgeon to be considered in connection with general provision for Tuberculosis work.)

After a short discussion, the President put the recommendation of the Standing Committee to the meeting and it was carried.

Resolved that sanction be accorded to an expenditure of Rs.900/- for X-Ray photographs required for the Municipal Tuberculosis Dispensary from the 1st August '38 to the 31st March '39. Cost to be met from the Budget allotment of Rs.13,700/- under "Medicines".

HEAD CLERK.

R.Dis.No. F.460-39 / G & A.

From

The Hon'ble Lieut. Col. J. H. Gordon, C.I.E., O.B.E., M.C.,
Resident in Mysore.

To

The Secretary to His Excellency
the Crown Representative, Simla.

Dated Bangalore, the 4th August 1939.

X Ray photographs for the Municipal Tuberculosis Dispensary, Civil and Military Station, Bangalore.

Sir,

I have the honour to say that a large number of X Ray photographs have to be taken for the Tuberculosis Dispensary which has been opened by the Municipal Commission, Civil and Military Station Bangalore. X Ray photographs are an essential part of diagnosis for Tuberculosis; but it is not possible for the Commission to instal their own plant in the Dispensary, as they are unable to meet the considerable expenditure both capital and recurring which would be involved. The photographs are therefore being taken at the Bowring Hospital, Bangalore.

2. Under Rule 10 of the Rules for the levy of fees in the Bowring and Lady Curzon Hospitals, the scale of fees fixed for X-Ray Examination is Rs.10/- per photograph. In view of the large number of photographs that are required by the Municipal Commission and of the fact that most of the patients treated are poor, it is considered reasonable to charge the Commission a flat rate for each photograph calculated on the actual expenditure to Government. The number of photographs supplied to the Commission during the year ending 31st March 1939 and the cost of films and materials are as shown below:-

	Rs.	A.	P.
Cost of X Ray films for 369 cases ..	452	8	0
Chemicals (Victor's Hypo and Developer).	94	0	0
Electric current.	24	0	0
Total.	570	8	0

To

To this should be added Rs.300/- being an honorarium at Rs.25/- per mensem which it is proposed should be given to the Radiologist owing to the increase in his work and Rs.168/- being the pay of an additional dark room Attendant at Rs.14/- per mensem. The expenditure for the supply of 369 X Ray photographs will thus be Rs.1038/- as follows:-

		Rs.
Cost of films, material etc.	..	570/-
Pay of Dark room Attendant at Rs.14/- per mensem.	..	168/-
Honorarium to the Radiologist at Rs.25/- per mensem.	..	300/-
	Total.	1,038/-

On this basis the rate for the supply of a single photograph may be fixed at Rs.3/-. The Municipal Commission have agreed to pay at this rate and have made provision for the purpose in their budget for 1939-40.

3. I request sanction of His Excellency the Crown Representative to the proposal to charge the Municipal Commission, Civil and Military Station, Bangalore, Rs.3/- for each X Ray photograph supplied to their Tuberculosis Dispensary. I also request sanction to the payment, with effect from 1st August 1938, to the Radiologist of the Bowring and Lady Curzon Hospitals, of an honorarium of Rs.25/- per mensem for the extra work. It is considered that this arrangement will be more economical than payment of a share of fees under the late Foreign and Political Department Memorandum No.D.3711-E/30 dated the 15th June 1931, in view of the large number of photographs to be taken and the small fee to be realised from the Municipal Commission.

Copy of letter No.2319/39, dated 1-6-39 from the President, Municipal Commission, C & M Station, Bangalore, to the Residency Surgeon, Bangalore.

-----:O-----

Subject:- X-ray photographs for the Municipal Tuberculosis Dispensary.

With reference to your letter No 276/T.B. dated 6th May 1939, I have the honour to forward herewith a copy of the Municipal Commission's Resolution No.4 dated the 25th May'39 agreeing to the payment of a flat rate of Rs 3/- to the Government for X-ray photographs supplied to the Municipal Tuberculosis Dispensary.

Municipal Commission's resolution dated the 25th May'39 (Ordinary meeting).

---

4. Letter No.276/T.B. dated the 6th May'39 from the Residency Surgeon, regarding the payment by the Munddipal Commission of a flate rate for X-ray photographs supplied by the Government to the Municipal Tuberculosis Dispensary, as a permanent measure.

RECOMMENDED.

Resolved that sanction be accorded to the payment by the Municipal Commission of a flat rate of Rs 3/- to the Government for each X-ray photograph supplied to the Municipal Tuberculosis Dispensary.

(File No.83 of 1938)

Sd/- H.H.Carleston,
President, M.C.

No. 276

RESIDENCY SURGEON'S OFFICE,
BOWRING CIVIL HOSPITAL.

Bangalore, 6th May *1939*.

FROM

Lieut-Col. J. B. Hance, C.I.E., O.B.E.,
MA., M.D., F.R.C.S.E., I.M.S.,
RESIDENCY SURGEON.

To

THE President,

Municipal Commission, C & MStation,

Bangalore.

Subject :— X-ray photographs for the Municipal Tuberculosis Dispensary.

---o-----

SIR,

S.N.1
C.P.6
P.U.C.

I have the honour to invite a reference to the Municipal Commission's Resolution dated 29th September'38 forwarded with your endorsement No.3813 dated 6th Octr.'38 allotting a sum of Rs 900/- for X-ray expenditure in connectio with the supply of X-ray photographs to the Municipal Tuberculosis Dispensary during the period 1st August 1938 to 31st March 1939 and deferring the scheme in general proposed in my letter No.203 dated 19th August 1938 for consideration in connection with the general provision for Tuberculosis work.

The Hon'ble the Resident when approached for sanction for the temporary arrangement proposed for the year 1938-39 has asked whether the arrangement is now to be a permanent one so that he can finally address the higher authorities.

I attach a statement showing the number of photographs supplied to the Tuberculosis Dispensary during the year ending 31-3-1939 with the cost of films and materials. The annual expenditure on the basis of experience of one full year is given below.-

Cost of films and materials ...	Rs 570/-
Pay of Dark room attendant @ 14/-p.m.	168/-
Allowance to Radiologist @ 25/-p.m.	300/-
Total Rs	1,038/-

Without involving the Municipal Commission to any extra liability over the proposal already submitted with this office letter dated 19th August'38 and at the same time to simplify matters from the accounts point of view, it has since been decided to charge the Commission, if they have no objection, a flat rate for each X-ray photograph supplied to the Tuberculosis Dispensary and treating the cost of films and establishment charges in this connection as a direct charge on Government.

This flat rate calculated on the number of photographs supplied and the annual expenditure of last year (1-4-38 to 31-3-39) works out at about Rs 3/- against the usual fee of Rs 10/- charged by Government.

I have the honour therefore to request you kindly to approach the Municipal Commission to the following arrangement being continued as a permanent measure in view of the fact that the Dispensary is supplied with X-ray photographs forming an essential part of diagnosis for Tuberculosis at a comparatively cheap rate.

" The Municipal Commission is agreeable to pay a flat rate of Rs 3/- to Government for each X-ray photograph supplied to the Municipal Tuberculosis Dispensary."

Necessary provision has been made in the Budget Estimate for 1939-40.

I have the honour to be,

Sir,

Your most obedient servant,

Sd/- J.B.Hance

Lieut-Col.I.M.S.,

Residency Surgeon, Bangalore
